AAU receives its new students with smart services

Within the beginning of the first semester of the new academic year 2017-2018, Al Ain University of Science and Technology received its new students who joined the university in its both campuses, Abu Dhabi and Al Ain among 21 undergraduate programs, 5 graduate programs and 1 professional diploma through the colleges of Engineering, Pharmacy, Law, Education, Humanities and Social Sciences, Business, and Communication and Media.

AAU has developed a comprehensive plan for the new students' reception to answer their queries, provide them with all information about the university, provide the best technology, electronic systems, publications and regulations that contain all the information and procedures that may be required by the students.

Al Ain University has completed all necessary preparations to create an educational environment, modernize service facilities, scientific laboratories, and classrooms, develop

electronic systems to improve educational services and provide recreational facilities such as gyms, health club, and restrooms.

It is worth to mention that, AAU started developing its new campus in Al Ain to be completed by 2019, which will be equipped with smart classrooms, equipped with and computers. In addition to, laboratories, conference rooms, a modern library, study and research rooms, and recreational facilities.
