An MOU between Al Ain University and the Environment Agency - Abu Dhabi

Al Ain University (AAU) and the Environment Agency - Abu Dhabi have signed a memorandum of understanding aimed at boosting collaboration in areas of shared interest in research and development. The signing of the agreement was overseen by Her Excellency Dr. Sheikha Salem Al Dhaheri, the Secretary General of the Environment Agency - Abu Dhabi, and Prof. Ghaleb Al Rifai, AAU President.

The MoU aims to promote collaboration in multiple environmental disciplines, benefiting both parties involved. It also mandates that faculty members possess the expertise, unique research resources, and innovative ideas to bridge any scientific gaps, as well as support the efforts of the Environment Agency - Abu Dhabi and Al Ain University to safeguard the environment and preserve biological diversity. This will enhance the reputation and function of both institutions as centers of scientific excellence, ultimately aiding Abu Dhabi in achieving its sustainability and environmental objectives.

Prof. Ghaleb Al-Refai, President of the University, said this memorandum will strengthen collaboration in the areas of research, service, and development while highlighting the interdependence of environmental, social, and economic systems in addressing environmental challenges and promoting sustainable development. The University is committed to utilizing its academic programs and scientific research to serve all sectors, particularly the environmental sector. Al Ain University is dedicated to preserving the environmental balance and climate and achieving the objectives of sustainable development. The university is making every effort to provide its expertise and resources to achieve these goals.

Ahmed Baharoon, the Executive Director of the Environmental Information, Science and Awareness Management Sector at the Environment Agency - Abu Dhabi, stated that the signing of the Memorandum of Understanding between the agency and Al Ain University demonstrates their shared dedication to actively promoting sustainable development through scientific research activities that focus on utilizing modern technologies. He added that this collaboration is one of the essential elements for meeting the developmental needs in environmental conservation and resource management.

By signing the MoUs, the universities' significant research capabilities will be utilized to meet the emirate's environmental research requirements, while also providing the universities with an abundance of meaningful research questions. The strategic priorities of EAD, such as climate change, habitat conservation, ground and marine water, fisheries, and air quality, present exciting research opportunities. Additionally, policy formulation and balancing social, economic, and environmental factors offer valuable areas for research. The results of the collaborative research will be disseminated through various mediums, such as scientific literature, reports, and journals.
